Information presented in this volume was taken from the 1979 Annual Report/ System Membership Applications submitted by public libraries in Texas.

The public library directory, which begins on page 11, includes city and county libraries and their branches, listed in alphabetical order by city. The hours per week for those libraries with branches are a composite of hours for both the central library and branches. Following this directory is a statistical profile of libraries submitting reports arranged by system and a county profile. Note that the data items, "Volumes Added" and "Volumes Withdrawn," have been dropped and that two new fields, "Uncataloged Paperbacks" and "Unbound Periodicals," have been included. As in the past, most data items do cover the last local fiscal year or reflect the status at the end of that year, except for staffing information, which is as current as possible.

Following the statistical section is an index which includes names of Head Librarians and Branch Librarians, and the names of libraries and branches which do not begin with the name of the city in which they are located.

We would like to thank all the public librarians for their cooperation and efforts in completing the Annual Report/System Membership Application forms. Special thanks go to Joe Meyer, Robert Haddock, Dorothy Mikeska, and Donald Dickson of the Texas State Library, Data Processing Department, for the production of the statistical section of this directory. Haven Whatley Toothman of the TSL Library Development Division was responsible for collecting and verifying the Annual Report/System Membership Application forms, as well as for formatting and coordinating the publication of this volume. Additional typing was performed by Shirley Avery.
